

LEGISLATIVE OUTREACH

Community Bankers Association of Illinois
Department of Governmental Relations

ACTION ALERT – DEMAND CONGRESS TO ACT ON MUST-PASS LEGISLATION

With time running out on the first session of the 114th Congress, CBAI is calling on community bankers to urge their lawmakers to support key regulatory relief bills now. A [prepared message](#) is available for you to quickly send via email as well as an advocacy webpage community bankers can use to [call their lawmakers today](#), and we ask that you forward this Action Alert to your employees and directors for their participation as well.

CBAI's David Schroeder, Vice President Federal Governmental Relations, is in Washington D.C. this week to urge members of the Illinois Congressional delegation to pass meaningful regulatory relief for community banks. Yesterday, the ICBA sent letters to every member of the House and Senate highlighting the industry's top-priority bills and a promise to share a list of cosponsors with community bankers in every district across the nation. Now it's time for community bankers to make their voice heard on the need for meaningful regulatory relief and greater access to capital by contacting Congress today.

PLEASE ACT NOW!!
