CBAI ACTION ALERT – CALL CONGRESS TO OPPOSE CROP INSURANCE CUTS

CBAI is urging community bankers to call on their members of Congress to oppose a provision of the two-year budget proposal that would significantly curtail the private-sector delivery of federal crop insurance.

The proposal, agreed to by top congressional leaders and the White House, would cut more than \$3 billion from the private-sector delivery of crop insurance over 10 years. Although the House and Senate Agricultural Committee chairman and ranking members expressed opposition to crop insurance cuts ([read Press Release](#)), the budget agreement could come to a vote before the full House as soon as today.

Please [click here](#) for information about calling your lawmaker now!

Thank you very much for your response to this Action Alert.
